

REMARKS

Favorable reconsideration of this application is requested in view of the foregoing amendments and the following remarks. Claims 33-62 are pending in the application. Claims 1-32 are canceled without prejudice or disclaimer.

At pages 2-3 of the Action, dated October 27, 2003, the Examiner discusses a restriction requirement. Applicant elects Group II, claims 33-62, drawn to a first method of measuring electric field effects on living biological samples with traverse. The traversal is based on the fact that examination of all the claims would not be a burden on the Office despite their possible disparate classification(s). Nevertheless, as noted above, claims 1-32 are cancelled without prejudice or disclaimer.

Other than as explicitly set forth above, this reply does not include acquiescence to statements by the Examiner. In view of the above, all the claims are considered patentable and allowance of all the claims is respectfully requested. The Examiner is invited to telephone the undersigned (at direct line 512-457-7233) for prompt action in the event any issues remain.

No fee is due for filing this Reply because it is being filed with the shortened statutory period for response as set in the Office Action dated October 27, 2003.

The Commissioner is hereby authorized to charge any fees or credit any overpayments to
Deposit Account No. 50-0456 of Gray Cary Ware & Freidenrich, LLP.

Respectfully submitted,
